1 CROWN OFFICE ROW

Talita de Campos

Call: 2025

Talita joined 1COR as a pupil in October 2026 and is gaining experience across all of Chambers' core practice areas.

Prior to starting pupillage, Talita worked as a paralegal in the Catastrophic Injury team of a leading multinational law firm. She assisted in a broad range of high-value and complex claimant personal injury matters, including fatal accident, polytrauma, amputation, spinal cord injury, psychiatric injury, brain injury and capacity-related claims. These arose in the context of road traffic accident, police misconduct and cross-contamination claims. Talita supported solicitors and partners across all stages of litigation, including urgent and limitation-sensitive work, and with cases settling for over £1 million. Her responsibilities included drafting Schedules of Losses, witness statements, medical chronologies, and a quantum analysis, as well as reviewing extensive documentary and video disclosure and medico-legal expert reports. This role built upon her earlier experience as a paralegal at a local solicitor's firm, where she assisted with family law matters.

Talita also engaged in voluntary work at the Free Representation Unit (FRU) and the Employment Tribunal Litigants in Person Support Scheme (ELIPS). This included assisting an individual who had brought claims against her former employer under the Employment Rights Act and the Equality Act.
