*"In 9 years of fighting for access to my child, the most fortuitous step I took was in appointing Ms Battie as my barrister. She is not only an expert in law, more importantly if she can see that a child's contact needs are not being met, she will fight for that child, and there would be no better person to have representing you in court.*

*If you have become jaded with the battle for access, disillusioned with the court process or have come to the realisation that you need an expert on your side, I urge you to appoint Ms Battie. She is a one-woman legal "A Team", and having her representation was the best decision I could have taken." (Client, 2020)*
